

**THERAPEUTIC AGENTS AND METHODS OF USE THEREOF FOR
TREATING AN AMYLOIDOGENIC DISEASE**

Abstract

5 The present invention provides therapeutic agents suitable for treating an
amyloidogenic disorder, as well as pharmaceutical compositions comprising the
therapeutic agents and a pharmaceutically acceptable carrier. The present invention also
provides methods of treating an amyloidogenic disorder, *e.g.*, Alzheimer's disease, in a
subject by administering to the subject a therapeutically effective amount of one or more
10 of the compounds of the invention.
